FAUZAN GUSRI

+62 812 1250 0548 | fauzan.gusri58@gmail.com | www.linkedin.com/in/fauzangusri | Jakarta Selatan, Jakarta, 12210.

Electrical Engineering graduate (completed in 3.5 years) with a strong foundation in technical sales, enterprise system integration, and AI-driven problem-solving. Proven track record in orchestrating high-impact projects, hands-on expertise in designing architecture solutions and crafting technical proposals for major enterprises. A resilient and collaborative team player with strong communication and project management skills, demonstrated through multiple organizational leadership roles and international exposure. Skilled in translating architectures into strategic business solutions for Manager & GM-level stakeholders. Eager to leverage analytics, technical ability, and presales expertise to drive exceptional outcomes.

Education Level

Universitas Indonesia - Depok, Indonesia — Aug 2022 - Jan 2026

Electrical Engineering (completed in 3.5-years)

- **ASEAN Career Fair Scholarship Awardee** (2025): Singapore
- **English Proficiency Test Duolingo** (2024): Score 135 (C1 Certified)
- **Relevant Courses:** Engineering Economy, Network, Machine Learning, Deep Learning, IoT, Embedded System, Digital Signal Processing, Wireless.

SMA NEGERI 8 JAKARTA - Jakarta, Indonesia — Aug 2018 - May 2021

High School Diploma in Science Major

Work Experience

PT TRICADA INTRONIK – Jakarta, Indonesia — Apr 2026 - Now

A national technology and IT consultant company specializing in telecommunication network data, AI infrastructure, and digital transformation solutions for major enterprises.

Presales Engineer

- Led the end-to-end technical presales cycle for 2 major enterprise projects, successfully securing multi-billion IDR Purchase Orders by translating client pain points into targeted Technical Proposals and presented for GM-level approvals.
- Architected High-Level Designs and Scopes of Work through stakeholder management and cross-functional collaboration, aligning business requirements with Business Analyst, DevOps, and Infrastructure capabilities to ensure technical feasibility and precise sizing.
- Optimized Bill of Quantity (BOQ) and formulated strategic project timelines with cross-functional teams, ensuring 100% operational readiness and seamless project handover upon PO issuance.

HUAWEI – Jakarta, Indonesia — Aug 2025 - Mar 2026

PT Huawei Tech Investment is a leading ICT infrastructure provider delivering high-capacity wireless solutions and network optimization for Indonesia's major telecommunications operators.

Network Design Engineer

- Automated the Bill of Quantity alignment of 16000+ sites across multiple teams, ensuring 100% technical compliance with customer specifications while maintaining rapid deployment timelines in a high-pressure environment.
- Responsible for the generation Scope of Work and Bill of Quantity for the wireless telecommunication projects, accurately forecasting equipment requirements and auxiliary components to optimize project logistics and cost-efficiency.

UNIVERSITAS INDONESIA – Depok, Indonesia — Aug 2024 - Jan 2026

Telecommunication Laboratory Assistant

- Mentored 140+ students on 10 complex network engineering modules.
- Cross-Disciplinary Research Collaboration with academic professors to execute multidisciplinary research projects spanning IoT, Wireless, and DSP, providing critical experimental support and data validation.

PT DAYAMITRA TELEKOMUNIKASI TBK – Jakarta, Indonesia — Dec 2024 - Feb 2025

A leading telecommunication infrastructure BUMN company in Indonesia, providing and managing extensive tower and digital infrastructure networks nationwide.

AIoT & Operation Engineer

- Engineered Python-based machine learning models for a pilot project across 3+ trial sites to predict crowd density and monitor camera status, successfully integrating these predictive capabilities into a centralized dashboard to enhance real-time operational visibility.
- Conducted quality control inspections across 200+ telecommunication sites, achieving 100% compliance with industry standards and ensuring maximum reliability of physical assets.

PT PERTAMINA PATRA LOGISTIK – Jakarta, Indonesia Jun 2024 - Aug 2024

A subsidiary of PT Pertamina focusing on downstream oil and gas logistics, supply chain management, and distribution services.

Supply Chain Management

- Streamlined supply chain tracking by managing Excel databases for 2 active POs, reducing delivery delays within a division handling 100+ annual shipments.
- Facilitated quality control checks by validating contract data, supporting the team in managing compliance across 50+ vendor agreements.

Organizational Experience

INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS (IEEE) SB UI – Depok, Indonesia Feb 2024 - Jan 2025

The UI student branch of the world's largest technical professional organization dedicated to advancing technology for humanity.

Head of Creative Media

- Directed the end-to-end creative strategy and digital branding for IEEE SBUI, leading a specialized team of 8 members (2 sub-leaders and 6 staff) to produce and manage high-quality technical publications and event campaigns.
- Led the promotional execution for 3 major tech-seminars annually, successfully driving engagement and securing 100+ participants per event through targeted digital content management.

IKATAN MAHASISWA ELEKTRO FT UI – Depok, Indonesia Jan 2023 - Dec 2023

A 200-member student organization focused on enhancing its members' management abilities, electrical engineering technical proficiency, career readiness, and community involvement.

Head of Operational - Graduation

- Led the end-to-end operational planning and on-ground execution for the Electrical Engineering Graduation event, coordinating logistics, vendor management, and crowd control for up to 100+ graduates and attendees per semester.
- Managed and mentored a cross-functional committee of 15+ staff members (including 3 sub-leaders), successfully mitigating real-time logistical bottlenecks to ensure 0% critical errors and a seamless event progression.

Learning Certificate

AWS Cloud Solutions Architect Certificate

- Completed a structured, multi-course AWS certification program designed to prepare for the AWS Certified Cloud Practitioner exam, covering cloud essentials, solution architecture, and data lakes.
- Built a strong conceptual and practical foundation in AWS through a curriculum aligned with AWS best practices and the Well-Architected Framework.
- Acquired hands-on understanding of core AWS services (EC2, S3, VPC, IAM) and cloud models (security, pricing) via the AWS Cloud Technical Essentials course.

Microsoft Cybersecurity Analyst Certificate

- Completed first three courses of the Microsoft Cybersecurity Analyst Professional Certificate, covering operating systems, networking, cloud computing, and threat mitigation.
- Gained practical skills in computer security, cloud concepts, and identity tools (Active Directory, Azure AD basics).

Cisco CCNA 200-301 The Complete Guide Certificate

- Comprehensive preparation for the Cisco CCNA 200-301 v1.1 certification exam. Gained fundamental understanding of Network Fundamentals, IP Connectivity, and Security Fundamentals.
- In-depth exploration of routing and switching technologies and their applications in real-world environments.
- Development of skills to work effectively on enterprise production networks.

Skills

- **Hard Skills**: Microsoft Office Suite (Excel, Power Point, Word), Programming & Database (Python, SQL, C/C++), Telecommunication & Network Architecture (RAN, Core Network, L2/L3 Switching, TCP/IP, Routing Protocols), Cloud & Infrastructure Deployment (Docker, Linux CLI, Terraform), Artificial Intelligence (LLM, Machine Learning).
- **Soft Skills**: Analytical Thinking, Stakeholder Management, Cross-Functional Collaboration, Project Management, Strategic Presales, Problem Solving, Adaptability, Leadership.
